**TERMINAL DISCLAIMER TO OBVIATE A PROVISIONAL
DOUBLE PATENTING REJECTION OVER A PRIOR PATENT PUBLICATION**

Dear Sir:

Petitioner, KANEKA CORPORATION, a corporation organized and existing under the laws of the Country of Japan and having its primary place of business at 2-4, Nakanoshima 3-chome, Kita-ku, Osaka, Osaka-shi, JAPAN 530-8288, through the undersigned attorney of record, represents that it is the owner of the entire right, title and interest in U.S. Patent Application Serial No. 10/583519, filed on June 16, 2006 and entitled ACRYLIC SHRINKABLE FIBER ("present application"), by virtue of assignment recorded at Reel 018021, Frame 0299, and hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the above-identified application, which would extend beyond the expiration date of the full statutory term of copending U.S. Patent Application Publication 2007-0298210, serial no.

S/N 10/583519

PATENT

11/667633, filed on May 11, 2007, and entitled STEP PILE FABRIC AND METHOD OF MANUFACTURING THE SAME ("copending application") as the term of any patent granted on said copending application is defined in 35 U.S.C. 154 and 173, and as the term of any patent granted on said copending application is presently shortened by any terminal disclaimer. The owner hereby agrees that any patent so granted on the present application 10/583519 shall be enforceable only for and during such period that it and the copending application are commonly owned. This agreement runs with any patent granted on the present application and is binding upon the grantee, its successors or assigns.

In making the above disclaimer, Petitioner does not disclaim the terminal part of any patent granted on the present application that would extend to the expiration date of the full statutory term as defined in 35 U.S.C. 154 and 173 of any patent granted on the copending application, "as the term of any patent granted on said copending application is presently shortened by any terminal disclaimer," in the event that any patent granted on said copending application later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321(a), has all claims canceled by a reexamination certification, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as presently shortened by any terminal disclaimer, except for the separation of legal title stated above.
